装帧:Paperback

isbn:9781600610608

Just as they were with "Collage Lost and Found", readers will be inspired just by flipping through the pages of this beautifully designed book. In addition to good-looking projects, there are techniques - many of them. Techniques include

bending and shaping wire into letter and number embellishments, using a sewing wheel and acrylic paint to add texture to papers, making hinges from a portion of a rubber stamp, adding texture to cards with basic sewing, combining different gauges of wire to create different looks for jewellery, combining rivets and shrink plastic, using a basic silkscreen process along with collage and reworking found objects into jewellery.
