Practical and clinically focused, this "Chest" title in the new "Teaching Files Series" provides you with 200 interesting and well-presented cases and nearly 600 high-quality images to help you better diagnose any disease of the chest. Experts in the field, Drs. Muller and Silva, use a logical organization throughout, making referencing difficult diagnoses easier than ever before. Detailed discussions of today's modalities and technologies keep you up-to-date, and challenging diagnostic questions probe your knowledge of the material. This unique, case-based resource offers you an ideal way to sharpen your diagnostic skills and study for exams. And, with Expert Consult functionality, you'll have convenient access to the full text online, all of the book's illustrations, additional cases and images, and links to Medline.
