装帧:精装

isbn:9783775710008

Based on a retrospective at the Kunstmuseum Bonn, this volume combines three works of criticism with a gallery of beautiful color plates showing the course of Guston's work from 1947-79 (Guston, born 1913, died of a heart attack in 1980). The painter began as an abstract expressionist devoted to splaying self across canvas, but

became better known
