Fashion may come and go, but womens' handbags are forever, revealing their nature and secrets. With forensic precision and cutting wit, Eisman helps women identify their own handbag personas as well as those of families, friends, and foes. From the canvas tote lady to the hiking backpack lady to the Vuitton graffiti bag lady and the gym bag lady--Eisman's clever treatise on how 40 of our favorite purses unveil our personalities is a gentle, teasing romp through women's pop psychology.
