出版时间:2004-05-25

装帧:Paperback

isbn:9781590594001

. The book contains and extends the original "Alpha" edition, and goes further to cover real working code, advice, and instruction on the publicly available feature-set version of the Whidbey product. ASP.NET 2.0 Public Beta will be globally available from many

web sites after Tech Ed in late May 2004.7Will be one of the very first books on ASP.NET 2.0 Public Beta, available as soon as the technology itself becomes available to a wider audience7Delves into the feature fixed APIs and in-the-box controls7Strong focus on some real tasks that web developers can apply to test servers immediately
