isbn:9780847684106

Over the years Charles Tilly has had an indelible influence on a remarkable number of key questions in social science and history. In the fields of social change, states and institutions, urbanization, and historical sociology, his seminal work has spawned whole new lines of inquiry and research. In one volume, this book offers the best and most influential of Tilly's important work, with a new introduction by the author that relates his analyses to a wide body of scholarship. The book includes a review and critique by Arthur Stinchcombe.
