Despite the fact that most of us think often about society and social life, few of us have had extensive schooling in how to organize or structure such thought. Guided by the belief that the sociological imagination is impoverished if accessible only to a handful of specialists, *Key Sociological Thinkers* provides the lay reader with a clear and manageable overview of the major sociological developments from Marx to the present day. Twenty-one concise, thorough chapters introduce the key thinkers in the field; their driving impulses, issues central to their work, substantive examples of the theory in action, their legacy, as well as reading lists meant to stimulate further research. The book's range includes not only canonical figures, such as Marx, Weber, and Durkheim, but feminist, post-structuralist, and post-colonialist thinkers of recent decades, including Nancy Chodorow, Michel Foucault, and Stuart Hall. Other sociologists and social theorists covered include Sigmund Freud, Georg Simmel, Herbert Blumer, Talcott Parsons, Robert Merton, Simone de Beauvoir, Norbert Elias, Erving Goffman, David Lockwood, Harold Garfinkel, Louis Althusser, Jürgen Habermas, Pierre Bourdieu, Arlie Hochschild, and Anthony Giddens. *Key Sociological Thinkers* is ideal for students new to the field, veterans looking to brush up, and anyone eager to expand their understanding of the world in which we live.
