Cities of the Gods is a historical study of the theory of Utopian communism in ancient Greek thought, identifying and assessing its several currents. The author looks at the reason for the decline of the Utopian traditions after c. 150 BC and suggests that the main factor was the Roman conquest of the Greek world, which produced a more conservative intellectual climate. He concludes by looking at the evidence for the survival of utopian traditions, particularly their influence on early Christianity.

通过将乌托邦分成高中低三种类型，来对古希腊（以及罗马）作家或流派的重要著作进行归类。这种做法本身风险很大，容易忽视很多细节。对此，《捍卫城邦》中有一章就有比较具体的批判。不过，作者在某些地方的论述还是挺好的，尤其是一些历史性解读上。
