Offering a lively and communicative approach for increasing pronunciation and speaking skills, Well Said Intro provides beginning to mid-intermediate students with the pronunciation and speaking tools they need to communicate in social, academic,

and professional settings.

Features

Increased emphasis on pair and small group activities helps students practice their pronunciation and listening skills in a contextualized setting. "You Choose!" boxes suggest where to effectively integrate specific supplements into the chapter according to class or individual student needs. Contemporary, sophisticated language promotes real-world communicative skills and smooth, comfortable pronunciation. Different writings styles such as poems, speeches, and text messages offer varying cultural points while prompting personalized speaking activities. "Practice" and "Helpful Hints" sections expand on a concept visually and offer opportunities for conceptual reinforcement. A comprehensive audio program offers short, clear activities, such as read-a-longs. Students practice the most common challenges in sound/spelling patterns, syllables, word endings, linking, stress, rhythm, and intonation. Learner-centered activities progress from controlled practice to relevant, natural communicative contexts. Readings, questionnaires, surveys, and interviews provide students with practical situations, helping them take their studies beyond the classroom to interact with native speakers. Useful supplements offer an overview of consonants and vowels, and offer intensive practice with the more troublesome sounds.
