The world is mad about Manga…

The Complete Idiot's Guide® to Drawing Manga Illustrated, Second Edition , is an enhanced revision of its successful predecessor—one that makes it easier than ever before for readers to create their own manga characters, landscapes, and stories. This new edition is even more visual, with over 100 additional step-by-step illustrations that guide readers from the basic strokes to the final ink renderings. Also added is a 16-page full-color insert that illustrates the full-color final renderings of all the characters, environments, and mech covered in the book

· New 16-page full color insert shows finished characters and environments

· Unlike most instructional manga books, this covers the fundamentals of drawing various character types, environments, and storytelling methods in one book

· More than 100 new illustrations added for this edition
