"Study Guide to Psychopharmacology" is a question-and-answer companion that allows you to evaluate your mastery of the subject matter as you progress through "The American Psychiatric Publishing Textbook of Psychopharmacology, Fourth

Edition". The Study Guide is made up questions divided into individual quizzes of 5-10 questions each that correspond to chapters in the Textbook. Questions are followed by an Answer Guide that references relevant text (including the page number) in the Textbook to allow quick access to needed information. Each answer is accompanied by a discussion that not only addresses the correct response but also explains why other responses are not correct.
