出版者:Columbia University Press

出版时间:1989-09-15

装帧:Hardcover

isbn:9780231071505

T. S. Eliot left Harvard during his third year of study in the department of philosophy and went to England. Forty-six years later, he authorized the publication of his doctoral dissertation but the book is virtually impossible to find today. Here we have a reprint of his sympathetic but not entirely uncritical study of the English idealist philosopher F. H. Bradley. Enthusiastic approval came to Eliot at the time from Harvard pragmatist Josiah Royce, who pronounced his writing of philosophy "the work of an expert." Eliot's critical literary theory was deeply influenced by his early philosophical outlook. This rewarding book provides a potent refutation of the false but frequent claim that Eliot's poetic and critical intelligence had no philosophical writings, making this book indispensable to all literary critics and theorists.
