《My First Chinese Book 一学就会:儿童汉语》内容简介: This book is specially designed for children who are learning their first words in Chinese, generally from age 3 to 8. The book includes 12 themes with many colorful pictures, and each theme contains 5 parts: Key words; Basic sentences; Funny exercises; Chinese characters; and Nursery rhymes. In addition, the free MP3 CD and DVD going with the contents of the book are a great gift.

To make the best use of the book, children can be encouraged to look at the pictures, listen to the pronunciation with the CD, do the fun exercises, and sing nursery rhymes.

With help and encouragement, children will learn daily words from a range of familiar situations, gaining Chinese language skills along the way.

The following example illustrates the structure of the theme "My family".
