How about an incentive in an igloo, a wedding in a submarine or a cocktail party in a triumphal arch? From traditional to contemporary, intimate to large-scale - Extreme Venues sought and found the most unique, eccentric and unusual venues on earth. A birthday party in the world's biggest toy store, a gathering in a secret nuclear bunker or a meeting on one of the planet's most rugged islands; it's all possible. So is a reception on the Chinese Wall, a party in an abandoned railroad tunnel or a product presentation under the wings of the Space Shuttle. The event industry has never been quite so entertaining!
