Two controversial thinkers discuss a timeless but nonetheless urgent question: should philosophy interfere in the world? Nothing less than philosophy is at stake because, according to Badiou, philosophy is nothing but interference and commitment and will not be restrained by academic discipline. Philosophy is strange and new, and yet speaks in the name of all - as Badiou shows with his theory of universality. Similarly, Žižek believes that the philosopher must intervene, contrary to all expectations, in the key issues of the time. He can offer no direction, but this only shows that the question has been posed incorrectly: it is valid to change the terms of the debate and settle on philosophy as abnormality and excess. At once an invitation to philosophy and an introduction to the thinking of two of the most topical and controversial philosophers writing today, this concise volume will be of great interest to students and general readers alike.

明明非常不同，偏要說互相同意，何苦啊？

Is philosophy too dangerous, or not dangerous enough? Fuck democracy, yes, but with what? The answer, my radical lefties, is blowing in the wind.

Badiou的八个thesis挽救了这本书，最后的讨论提到的很多书恰恰是我刚刚加进reading list的...看完此书是半夜洗头头发干不了没法睡觉的杰作

两个好基友！

Badiou開始時又搬出了他那些自建的大詞瞎套 到了中間iek出來白活就能明白了 有啟發的一次對話
