Updated to reflect the current SAT format and questions found on its most recent exams, this workbook concentrates on the SAT Critical Reading section with an extensive series of exercises. They reflect that section as two question types: sentence

completion and reading comprehension. The exercises for both question types are divided into three levels of increasing difficulty, labeled from A to C, with all questions answered and explained. Students who master level C of both sections will be prepared to excel on the actual exam. The author also presents test-taking tips and an extensive vocabulary review.
