Why does popcorn cost so much at the movies? When does it make sense not to recycle? Why are laws against polygamy detrimental to women? Steven E. Landsburg examines everything from taxes, unemployment and illiteracy to the mating game, the death penalty and environmentalism to solve the puzzling questions that occur in daily living. Both controversial and humorous, *The Armchair Economist* demystifies the economics of everyday behaviour, and shows how the laws of economics can reveal themselves in surprising ways. Put your convictions to the test with *The Armchair Economist*.

流行经济学在各国都很火，不过案例比国内的粗制滥造的产物们要有趣的多
