This is a full-colour study of acclaimed artist Francesco Clemente's ongoing efforts to capture and convert spiritual life experiences into two-dimensional art. Produced in collaboration with Deitch Projects - one of the world's most exciting contemporary galleries - this wonderfully illustrated new book documents the efforts of critically acclaimed Italian artist Francesco Clemente as he strives to capture and transform the experience of spiritual life into art. For Clemente, the lightness of the rainbow represents a breakthrough from the darkness, from the long night of the artist's darker palette. The rainbow is a bridge, a structure that brings things together, a means to connect the spiritual world with earthly reality.
