The career opportunities of the future Â...

Green careers include jobs in which environmentally conscious design, policy, and

technology are implemented to improve the environment and provide sustainable living. A growing number of people, whether right out of college or already well established in the workforce, are looking to market themselves and their environmental convictions. It is a promising path to a larger paycheck and healthier environment.

• Green-collar jobs are on the rise according to Businessweek magazine

• The Green Jobs Act of 2007 anticipates a growing labor need for thousands of green-collar workers with \$125 million in annual funding for training and research
