Welcome to the world of clouds, where every cloud creates cute, cuddly babies that get delivered to their families by storks. Every cloud, that is, but Gus. Gus is the littlest cloud and only knows how to make snapping alligators and spiky porcupines. Ouch! For Peck, Gus' stork and best friend, this means the job can be quite painful. But as Peck and Gus soon discover, sometimes all you need is a little teamwork and you can weather anything!
