评论

读的不是这个版本。柏拉图无疑是伟大的心理学家，哪怕或许他关于政治的论述对政治生活存在着误解。想起纳博科夫讽刺陀思妥耶夫斯基，说他本应是超一流的剧作家，入错了写小说的行，不由幻想如果柏拉图从事历史学或者文学工作将会如何。

-----  
the supreme seriousness and triviality of writing; simplicity of thoughts/truths that takes an entire lifetime and hard work to reach; friendship and politics; theory of realities and knowledge, thing in itself; selectivity of potential students of philosophy
