著者:Plato; Benjamin Jowett

出版者:Oxford at the Clarendon Press

出版时间:1997-01-03

装帧:Hardcover

isbn:9781855065147

Many would consider Plato not only the greatest philosopher ever, but the greatest Greek prose writer as well. Numerous English translations have been attempted, largely to be criticized and forgotten. Over a hundred years after the first edition of his translation in 1871, Benjamin Jowett's reputation remains resilient to time. Jowett (1817-93) was a great classical scholar and Master of Balliol College, Oxford, who spent over fifty years translating and revising these dialogues. He was interested in conveying the literariness of Plato's writings and to offer up a cohesively readable translation that would appeal equally to classics scholars and readers with no knowledge of ancient Greek. This 1892 third edition of Jowett's translation reveals his clearest vision, with his final editorial selections, ordering, and word-polishing; it includes the Eryxias, the Second Alcibiades, twenty-one of Jowett's essays, and marginal analyses, all subsequently omitted. Though Jowett wanted his translation to be improved and corrected from time to time, for its overall consistency and fluidity, this third edition remains a classic that both Plato and Jowett scholars will wish to read and consult.

书评

问题：是否应该以恶制恶？ We ought not to retaliate or render evil for evil to any one, whether evil we may have suffered for him.
想到德国人夫妇在中国被杀，而后人们自发组成以他们命名的基金会，帮助来自山区的孩子接受教育，不再发生悲剧的故事。 问题：公民意识...
