Made it in China features the experiences and lessons of international entrepreneurs who have left their own country and built successful businesses in China. It focuses on nine entrepreneurs who talk about how they grew their companies in this new and developing market. Each of these entrepreneurs was invited to participate for the expertise and focus they bring to the book. Their stories are both practical and entertaining, combining first-hand anecdotes about the challenges they faced and how these were met with their own observations and thoughts for dealing with each situation.
