There are three types of success that we are working on at any given time in life. They are Personal, Financial, Spiritual and Social. There is a large overlap between the spiritual success and financial success. You will need to decide what type of success is right for you at this point in your life. It may be personal success, where you work on your relationships with others or spiritual success, whereby you decide if there is a Supreme Power in the universe and discover your relationship to that power. On the other hand, you may need an improvement in financial success. This book provides you with a contract to sign, committing you to stay on the path to your Success. It helps you project your future for success.
