"What game-changing scientific ideas and developments do you expect to live to see?"

This is the question John Brockman, publisher of Edge.org, posed to more than 100 of the world's most influential minds. Exhilarating, visionary, sometimes frightening, but always fascinating, their responses provide an eye-opening road map of our near future.

A great must read from the best minds of the world. I read the Kindle version (10 days before the book is published by print and it is worth the rush in every way.) Read the other books edited by Brockman.
