出版者:Greenwood Publishing Group

出版时间:2010-7

装帧:Hardcover

isbn:9780313360350

Ideal for student research assignments, this series features interesting and important figures - contemporary and historical - drawn from a broad range of curriculum subject areas, including history, science, politics, literature, and the arts. The series fills a gap in reference collections, offering full-length, engagingly written biographies that are enjoyable to read, based on authoritative research, and fully documented. Each Volume Includes: coverage from birth to death or the present day; timeline highlighting significant biographical events and career contributions; portfolio of photographs depicting the subject at different stages of life; and, bibliography of print and electronic resources recommended for further study. For a complete listing of all titles in this series, go to website.
