modern sewers are looking to draft their own patterns - but the only books that teach the skill are dry and outdated. "Design-It-Yourself Clothes" is a comprehensive guide to pattern drafting from concept to execution by Cal Patch, a fashion designer with a modern aesthetic. Cal offers 5 key projects, each with 4 variations. She covers how to measure your body and draft a perfect-fitting skirt, T-shirt, button-down shirt, dress and trousers. Insider tips, explanations and exercises are sprinkled throughout, plus readers are shown how to create patterns from the clothes already in their wardrobes - without ripping out a single seam!
