著者:[美] 比尔·布莱森

出版者:Delacorte Books for Young Readers

出版时间:2009-10-27

装帧:Hardcover

isbn:9780385738101

"Enter the world of science as Bill Bryson unmaskes the mysteries of the universe." Did you know that: - Every atom in your body has almost certainly passed through several stars and been part of millions of organisms on its way to being you? - If you are an

average-sized kid, you have enough potential energy inside you to explode with the force of several hydrogen bombs? And--What happened to dinosaurs? How big is the universe? Why are oceans salty? Is a meteor going to hit us? Tackling everything from the Big Bang to the rise of civilization, Bill Bryson's inimitable storytelling skill makes the why, how, and, just as importantly, the who of scientific discovery entertaining and accessible for young readers.
