Although—like Hannibal, Napoleon, and Robert E. Lee—German Field Marshal Erwin Rommel (1891–1944) met ultimately with defeat, his daring, tactical skill, charismatic leadership, and brilliant string of victories succeeded in placing him in the pantheon of great commanders. By 1942 Rommel and his Afrika Korps had converted a "side show" of World War II into a major offensive for the Axis powers. The British had been thrown back across the frontiers of Egypt until, at El Alamein, Rommel's army threatened Cairo, Alexandria, and the rich oil fields of the Middle East. *Rommel: Battles and Campaigns* provides a perceptive and incisive analysis of his entire military career, from his fighting in Rumania, Italy, and France during World War I, through his North African campaigns, to his command in Normandy and his fatal (though false) implication in the July 20 bomb plot against Hitler. Written by an expert in tank warfare, and illustrated with nearly two hundred photos and maps, this book presents a revealing, critical portrait of one of the most celebrated soldiers of World War II.

评论

作者对隆美尔带有明显的个人偏见，虽然他的本意是分析隆美尔的用兵，但实际上此书可算是一本批判其用兵方法的书籍。好在本书作者是坦克兵出身，他的观点也确实有理有据，只是个人倾向过于明显。
