"Creative Grab Bag" is a collection of work from artists, illustrators and designers from around the world. Author Ethan Bodnar created over 30 unique tasks and gave each contributor a task that was different from their typical work. The creative tasks include: design a building, illustrate a memory, create a collage, design a piece of furniture,

create a photo essay, design a typeface, design a character, and make a wallpaper pattern. It contains images of each artist's creative task, typical work, and a biography and short reflection on the creative process. It also provides tear out cards so readers will be able to create their own grab bag.
