Millions of Christians around the world are becoming aware of an imminent reformation of global proportions within the Church. God is changing this revered institution and is making a new collective awareness of an age-old revelation, a corporate spiritual echo that reflects God's desire for the Church.

In this book, Wolfgang Simson brings to light what God is saying to Christians everywhere. Researched across the globe, he presents the case for the reformation of the Church's existence. In a world where the Church is being ignored, it is time to bring the Church to the people, and not the people to the Church. Whether it is what we know as 'Church' from the last five years or last five hundred year, no one has truly been able to break free from the structures of the past. Many may see this book as radical, many may see it as a reforming of old ideals, but all who read it will be challenged in their Churching and have their priorities refocused in a life-changing way.
