Blank and Krantz's "Calculus" brings together time-tested methods and innovative thinking to address the needs of today's readers, who come from a wide range of backgrounds and look ahead to a variety of futures. Some study the subject because it is required, others because it will widen their career options. Mathematics majors go into law, medicine, genome research, the technology sector, and many other professions. Blank and Krantz's "Calculus" strives to empower these readers, enhance their critical thinking skills, and equip them with the knowledge and skills to succeed in the career path they ultimately choose to follow.
