Since primitive times, women have gazed over campfires, fumbled out of their bearskins and wondered how to best please their tool-wielding mates. Grunting males have offered little help or guidance for their eager-to-learn companions, instead occupying themselves with chest thumping, sports on cable and other testosterone-driven posturing.

It took eons of Darwinian development for women to realize that the answers to their

many questions were as close as the nearest telephone. Who better to unveil the mysteries of the he-man psyche than a woman's best friend, the master of clever and refined thinking, the gay man? He knows exactly when, where and how to elicit that ultimate ooh-ooh, because he knows all too well what he wants.

Enter Dan Anderson and Maggie Berman, whose biologically determined friendship transcends the battle of the sexes, freeing them to dish and compare notes. Their guide to male pleasure, *Sex Tips for Straight Women from a Gay Man*, is the culmination of their intensive lifelong survey on the subject. Two fearless and dedicated scholars, Dan and Maggie bucked the system, at times even descending into the trenches themselves. Now the wisdom gained from the years of devoted scholarship can finally be divulged to the heterosexual public.
