

# The Works of Mary Wollstonecraft (Vol. 2)

[The Works of Mary Wollstonecraft \(Vol. 2\) 下载链接1](#)

著者:Mary Wollstonecraft

出版者:NYU Press

出版时间:1989-11-01

装帧:Hardcover

isbn:9780814792278

This is the first and only complete edition of all the published writings of Mary Wollstonecraft, the mother of the feminist movement. Wollstonecraft's writings include fiction, journalism, reviews, and diaries, and confirm her place in history as a significant force in the young rationalist movement in education and politics. The set features extensive footnotes, a comprehensive index, a general introduction, and specialist introductions to each selection, and is handsomely bound in pure woven cloth over millboard.
