Cases in International Finance offers students a firsthand look at the challenges and developments in the field of international finance. The structure of the casebook is modeled after Multinational Business Finance, Ninth Edition, 2001, co-authored by David K. Eiteman, Arthur I. Stonehill, and Michael H. Moffett (0-201-63538-0). Although ideally intended to accompany Multinational Business Finance, this casebook could supplement a managerial finance text or serve as a stand-alone textbook.
