This is a book that goes behind the more official presentations and accounts of research methods to explore the lived experiences, joys and mistakes of a wide range of international researchers principally working in the fields of accounting and finance, but also in management, economics and other social sciences. The authors of the articles in this book address a wide range of issues and obstacles that they have confronted at various stages in their respective research careers. In reflecting on their personal experiences, they provide practical guidance on how to overcome the types of problems that typically confront researchers in their day-to-day work.
