It's a fact: if you know HTML, CSS, and JavaScript, you already have what you need to

develop your own iPhone apps. With this special Early Release ebook, you'll learn how to use these open source web technologies to design and build apps for both the iPhone and iPod Touch, on the platform of your choice. Device-agnostic apps are the wave of the future, especially for mobile devices, and this book shows you how to create, test, and convert one product that can be used on several platforms.

作者介绍:

Jonathan Stark is a web developer and leading expert on publishing desktop data to the web. Past clients include Staples, Turner Broadcasting, and the PGA Tour. Jonathan is the author of the book *Web Publishing with PHP and FileMaker 9*, is a regular speaker at the FileMaker Developer Conference, and is a tech editor for *php|architect* and *FileMaker Advisor* magazines.

书评

http://adamlu.com/?p=344 编写Iphone Web App的三个主要技术是HTML, CSS, Javascript, 不需要在Iphone上安装, 也不要Objective-C来写, 所以对于前端来说算是比较容易上手。相对于Native App来说, Web App的优点是开发周期比较快而且可以运行在任何Web浏览器中并且开发不只是...

有时候也真的觉得时光飞逝, 第10章所介绍的PhoneGap也已经被apple封杀了, webview方法同样也可以封装成native app。
或许未来真的是一个手机的互联网时代, 我坚信如此。
这本书太好了, 解答了很多我对手机页面的疑惑, 希望能有大神翻译, 眼睛给我看裂了
~
