[Reporting the Israeli-Arab Conflict 下载链接1](#)

著者:Tamar Liebes

出版者:Routledge

出版时间:1997-3-13

装帧:Hardcover

isbn:9780415154659

The author shows how journalists abandon their watchdog role, however unintentionally, to support 'our side', for example in the 1991 Gulf War. This book demonstrates how readers and viewers are also implicated by virtue of their expectations and their inability to decode the press critically. Examples are provided of how conflict may be otherwise depicted, for example by artists and front-line participants, as well as how media-literate readers can learn to read between the lines.
