出版时间:1985-06-01

装帧:Paperback

isbn:9780253203441

This volume presents the classic statements in semiotics and touches on a vast set of problems and themes--philosophical, aesthetic, literary, cultural, biological, and anthropological. NB: The subject of this book is semiotics, which is not an option on your list. You need to work on that list to make it more inclusive.
