isbn:9781423114543

Join the beloved Baby Einstein character, Caterpillar, as he explores the world around him, in this new novelty board book filled with opportunities for discovery. Babies will love seeing the world from the caterpillar's perspective, and will build motor skills grasping the soft plush Caterpillar attached to the spine of the book. Baby Einstein Books is an imprint of developmentally appropriate, interactive books designed to introduce children ages 0-3 to classic poetry, art, and foreign languages in a fun and accessible way. A combination of playful images, beautiful photography, and bold illustrations with multilayered text will captivate and stimulate babies and young

children. This "humanities for babies" program, based on the award-winning video series, taps into the natural learning potential of young children--and their parents' aspirations for them.
