著者:Donald Tyson

出版者:Llewellyn Publications

出版时间:2009-07-01

装帧:Paperback

isbn:9780738715063

Popular author Donald Tyson puts a new spin on astrology, showing how the runes can be used to make stunningly accurate predictions using the horoscope as a structural framework. Tyson explores the meaning and divinatory significance behind each of the twenty-four Germanic runes, then teaches you step by step how to cast and interpret a rune astrology chart. See how the placement of the runes can be favourable

or unfavourable depending on their positions corresponding to the signs, houses, planets, angles, nodes, and aspects. Consulting your runic chart allows you to predict future events and gain insight into yourself and loved ones with amazing, fate-guided accuracy. With clear instruction and advice on giving readings, "Runic Astrology" invites you to go beyond the stars to achieve deeper, more multi-leveled analyses of chart interpretation than ever before.
