Popular lowbrow artist Isabel Samaras' work is populated with pop culture icons, erotic tableaux based on mid-century TV shows, and riffs on the old master painters. This is the first monograph to highlight her witty, sexy, surreal work. Featuring delightful and enlightening text from art writers Justin Giarla and Colin Berry, fellow-lowbrow luminaries the Pizz and Shag, and erotic novelist Lucy Blue, "On Tender Hooks" is at once a serious contribution to the world of contemporary art books and a hell of a lot of fun.
