isbn:9783865605399

The iconic postpunk band Sonic Youth is best known for blurring musical genres and transcending the boundaries of rock guitar. Its members--Kim Gordon, Thurston Moore, Lee Ranaldo and Steve Shelley--have also, over the course of 27 years since they first started playing together, more quietly engaged in multidisciplinary solo efforts and collaborations with visual artists, filmmakers, designers and other musicians. "What we're doing is always inventing itself. I have no terminology for it," according to Moore. This comprehensive 784-page volume--which includes two 7-inch records with unpublished songs by each member, album covers, band portraits and documentary photos, many of which have never been published before--is a must for

fans and anyone seeking to connect the dots between New York's various cultural scenes. It features writings by band members and contributions by a host of other luminaries, including Richard Hell, Mike Kelley, Jutta Koether, Alan Licht, Lydia Lunch and John Miller.
