The best way to understand Congressman Ron Paul is to take a look at his voting record. He has never voted to raise taxes. He has never voted for an unbalanced budget. He has never voted to raise congressional pay. He has never taken a government-paid junket. He has never voted to increase the power of the executive branch. He voted against the Patriot Act. He voted against regulating the Internet and he voted against the Iraq war. Operating from a unique strain of libertarian republicanism, Ron Paul's beliefs are refreshingly logical, even if you disagree with his principles. He is a Republican in the truest sense of the word, not at all what that word has grown to represent. This is his call to arms for a nation that needs to change but doesn't know how. Barry Goldwater defined a conservative in the 1960's and with this manifesto, Ron Paul redefines it for the modern day.

Paul用精准而简洁的文字阐述了他在内政外交各方面的见解，比较浅显易懂，不能算学术专著，应该属于写给大众看的入门书类，比我想象得好很多（一般不奢望政客写正常的书=.=）

Ron Paul rocks!

A great book. At the very minimum, we finally have a presidential candidate who really walks his talk.
