Key text for OU course: From Enlightenment to Romanticism. Provides primary and secondary sources on industry and changing landscapes, new forms of knowledge, new conceptions of art and the artist, and the exotic and the Oriental. Each selection is accompanied by a detailed introduction explaining the context and significance of the sources. Extracts in the anthology stimulate questions rather than providing reassuring answers, but provide vital insights to the major events, movements, and personalities of the time. Invaluable resource for all students of European culture in the period.
