Tourism in Southeast Asia provides an up-to-date exploration of the state of tourism development and associated issues in one of the world's most dynamic tourism destinations.

The volume takes a close look at many of the challenges facing Southeast Asian tourism at a critical stage of transition and transformation, and following a recent series of crises and disasters. Building on and advancing the path-breaking *Tourism in South-East Asia*, produced by the same editors in 1993, it adopts a multidisciplinary approach and includes contributions from some of the leading researchers on tourism in Southeast Asia, presenting a number of fresh perspectives.

The volume combines introductory material with an in-depth examination of anthropological writing on Southeast Asian tourism followed by case studies dealing with as diverse issues as globalization, terrorism, 'romance tourism' and ecotourism. A sister volume, *Heritage Tourism in Southeast Asia*, is in preparation.
