Claire is a boy-shy Twitter newbie. Her BFF Lottie is a practiced flirt. Will has a mind-numbing crush. Bennett just wants to make fun of them all on his blog. In the sometimes anonymous world of Twitter, it's easy to reinvent yourself. Easy to pretend you're someone you're not. And very easy to flirt. But flirting can lead to crushing. And things get complicated when you're crushing on someone who's not who they seem to be. . . . In the vein of Lauren Myracle's best sellers TTYL and TTFN, and told in an innovative format combining tweets, emails, and blogs, Tweet Heart is a romantic comedy that will set your heart atwitter.
