Anton Myrer's beloved novel of America's post-World War II generation is as powerful now as it was upon its publication quarter century ago. It tells the story of five Harvard educated men and the women they loved - and the elegant car that came to symbolise their romantic youth. It is also the story of their coming-of-age in the dark days of World War II, and of their unshakable loyalty to a lost dream in the decades that followed. Filled with nostalgia and history, *The Last Convertible* is a gripping tribute to a way of living, thinking, and dreaming that has all but disappeared.
