Philosophy of History is an essential introduction to a vast body of writing about history, from classical Greece and Rome to the modern world. M.C. Lemon maps out key debates and central concepts of philosophy of history, placing principal thinkers in the context of their times and schools of thought. Lemon explains the crucial differences between speculative philosophy as an enquiry into the content of history, and analytic philosophy of history as relating to the methods of history. The first two parts of the book trace each of these traditions, whereas the third part revisits both in the light of recent contributions to the discipline. This guide provides a comprehensive survey of historical thought since ancient times. Its clear terminology and lucid argument will make it an invaluable source for students and teachers alike.
