isbn:9783540560500

This Landolt-Barnstein volume IV/25 is a supplement to the volume IV/18 "Viscosity of Pure Organic Liquids and Binary Liquid Mixtures" and provides viscosity data published in the years 2000-2006. Included in this volume are viscosities of pure organic liquids and binary liquid mixtures at different temperatures and pressures including organic liquids, organometallic liquids, and organononmetallic liquids and their mixtures. Not all published data could be included in the printed version, but the electronic version contains all available data and references.
